Meeting Agenda

Team: 23andMe Date: June 6, 2021 Time: 6:00 PM

Topic 1: Logistics

1. Final Project Video
   a. Private Version
      i. There are many tasks that specifically need to be delegated to ensure that our video is of great quality marketing our app
         1. A video discussion about how to access your repo, a tour of the repo organization and a demonstration of making a small change to the repo and the completion of the build process.
         2. A more involved retrospective about how your Agile practices were conducted and what challenges and victories the team faced.
   b. Public Version
2. Documentation ADRs
3. Documentation for Code
4. Individual Assignments

Topic 2: Merge All Branches / In-Depth Evaluation of our Application

1. Firstly, open the Figma and compare everything on our site to our current application

<div align="center">

LINK TO OUR BULLET JOURNAL :)
vvv ALL CRITIQUES ADD UNDER HERE vvv
1)

</div>

2) **Header Top Navigation Bar**
   a) Functionality
      i) Needs logout button
      ii) Include icon into navbar
      iii) Need to add spacing to both day and week view
   b) Styling

      i) Needs Logo implementation 23ANDME
      ii) Change the font of the header text to match the website's font

  c) <u>Bugs</u>
    i) There's a syntax bug that displays in the console that says "unexpected token" >
    ii) Header Top Nav needs to be connected to the top of the page. Weird Spacing/Padding is there

3) <u>Side Navigation Bar</u>
  a) <u>Functionality</u>
    i) The navbar shouldn't block the logo when it's closed
    ii) Remove Future Log tab
    iii) Remove Custom Log Tab (?)
  b) <u>Styling</u>
    i) Should be wider like Figma
    ii) Make the side-bar look less sparse
  c) <u>Bugs</u>
    i) <u>The weekly date picker is gone</u>

4) <u>Bullets</u>
  a) <u>Functionality</u>
    i) Clicking on the bullet once should open the edit modal option(?) or add an edit bullet symbol? (single click can only drag)
    ii) Edit bullet button
    iii) cannot drag to empty list
    iv) Make bullet icons into emojis
  b) <u>Styling</u>
    i) <u>Priority/NoteType Symbols need to be added: Change to Emojis</u>
    ii) Font should be changed to match the website's font
    iii) The week lists is out of proportion CSS needs to be changed
    iv) Bullet styling still off: the background of the actual notes is white and looks weird
  c) <u>Bugs</u>
    i) Bullet Added in Week Picker don't allow you to choose what type of bullet it is
    ii) The edit bullet functionality's logic might be off. (getDate stuff and maybe change logic of getBulletsByDay to speed up operation of editing bullets). <u>cannot edit weekly most bullets</u>
    iii) <u>cannot drag to empty list</u>

5) <u>Entry Component Creator</u>
  a) <u>Functionality</u>
    i) When you use the calendar to select a date, the date is not updated correctly until you press prev/next; add update date function to when the calendar is used to select date (might be fixed)
  b) <u>Styling</u>
    i) Change font of task/event/note button labels
  c) <u>Bugs</u>

        i)   This component needs to be hooked up differently. It's rendering at the top of the page behind the TopNavBar

6) <u>Date Picker</u>
- a) <u>Functionality</u>
    - i)
- b) <u>Styling</u>
    - i)   Date Font should be changed to match the website's font
- c) <u>Bugs</u>
    - i)   Date doesn't update when the input calendar is used to select a date far away

7) <u>Week Picker</u>
- a) <u>Functionality</u>
    - i)   Maybe a fixed view of the days that are shown like this

        (1)
- b) <u>Styling</u>
    - i)   The styling needs to be added to correspond to Figma (font, etc.)
- c) <u>Bugs</u>
    - i)

8) <u>Mood Tracker</u>
- a) <u>Functionality</u>
    - i)   Literally does not exist(?)
        - (1) Who is working on this
- b) <u>Styling</u>
    - i)
- c) <u>Bugs</u>
    - i)

9) <u>OTHER MISCELLANEOUS CRITIQUES (Remember to specify the component)</u>
- a) <u>Functionality</u>
    - i)   Login
        - (1) Does hitting enter work for login
            - (a) ENTER NEEDS TO WORK FOR LOGIN
- b) <u>Styling</u>
    - i)   <u>WEBSITE THEME(?)</u>
        - (1) Are we going to change the website theme? What color scheme, or what did we talk about with Powell?

  ii) Login
    (1) Probably too small compared to the rest of the screen
     (a) Make the login screen bigger
 c) <u>Bugs</u>
  i) <u>WEBSITE LOADING TIME(?):</u>
    (1) Takes a while for the server to spin up on the backend before Heroku loads the site
  ii) DATABASE CREDENTIALS CHANGE from time to time
    (1) Unsure of how to fix(?)

Topic 3: FINAL SPRINT PLANNING!
